Scenario Integration

Guidance Notes

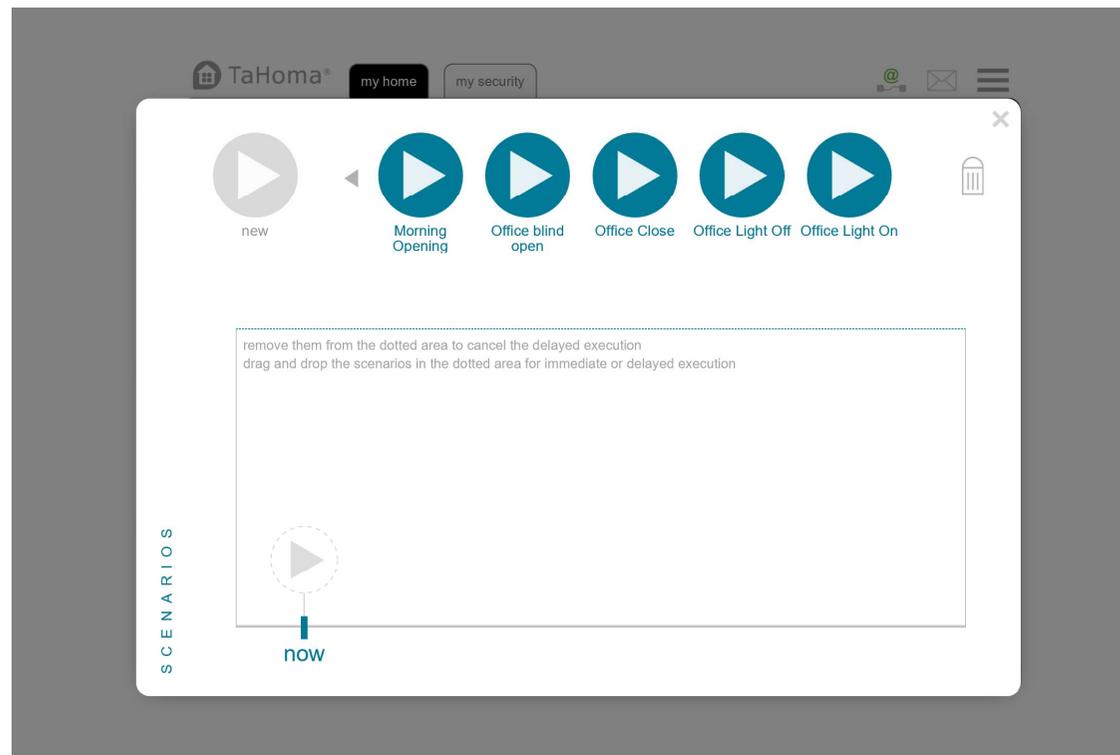

for

Tahoma

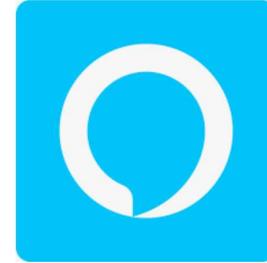

Scenes/Scenarios set up in Tahoma can be voice activated by Amazon Echo & Dot

Create Scenarios in Tahoma

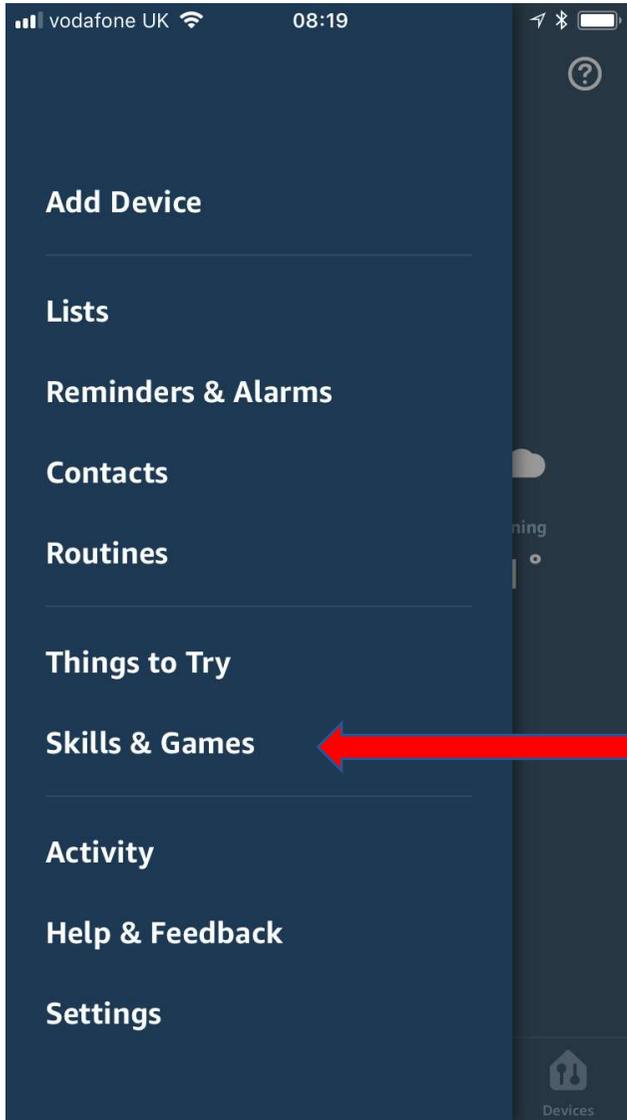

**Download Alexa App
and set up your Amazon product
as per instructions.**

**Open the Alexa App
and click on menu bars
in top left corner**

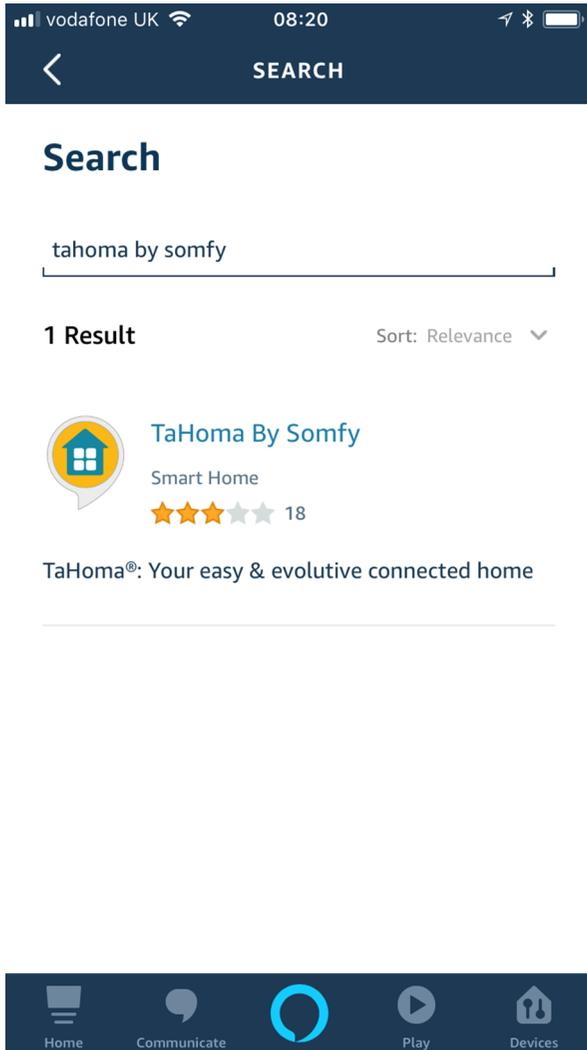

On the menu

Select

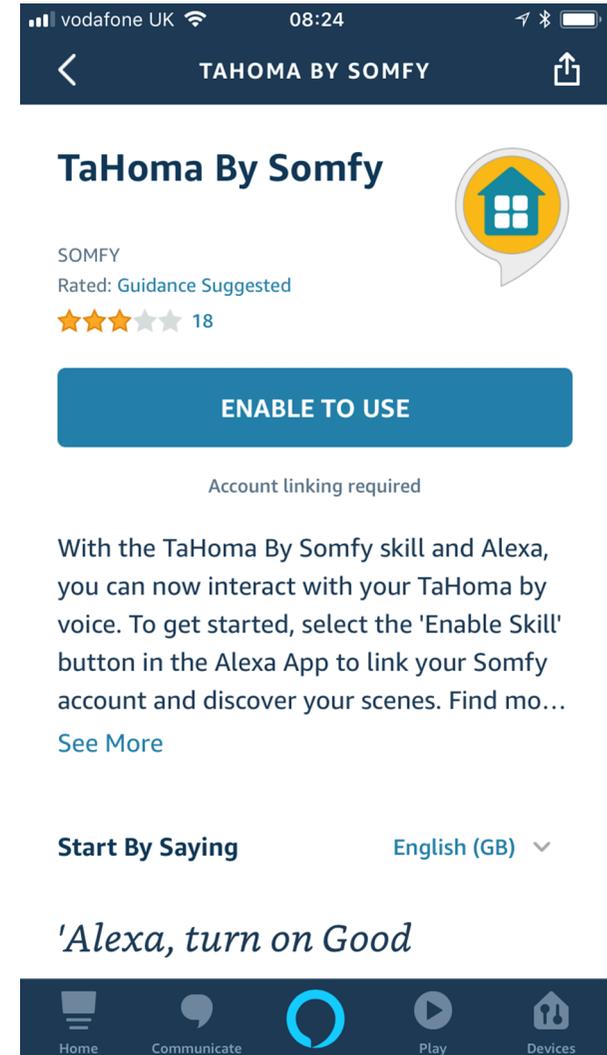

“Skills”

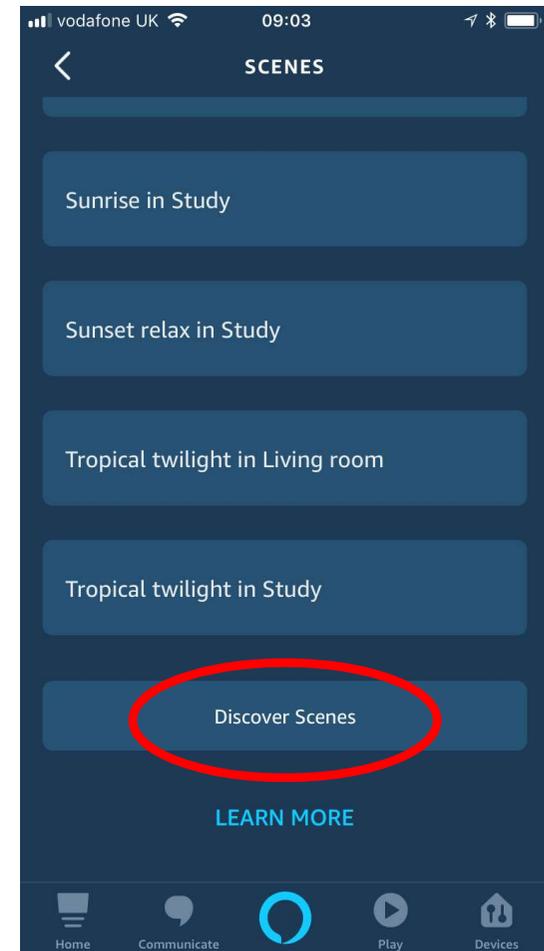

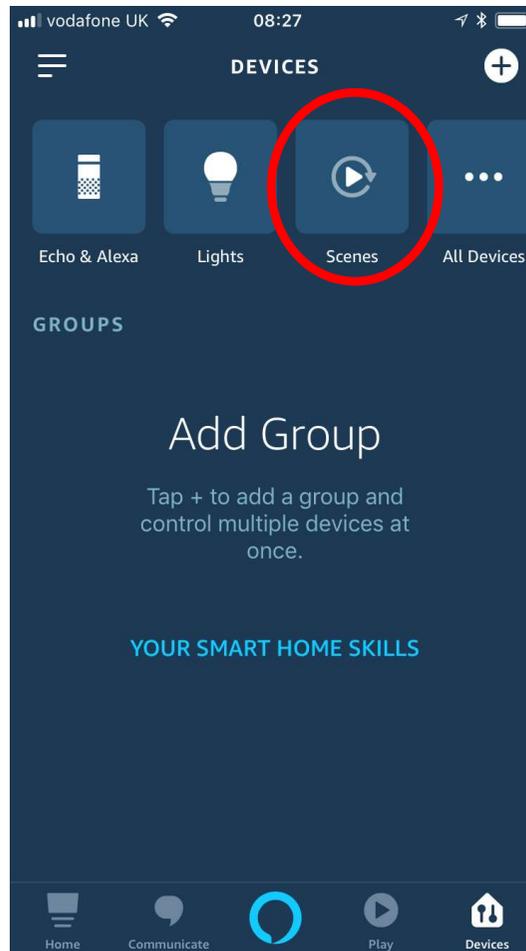

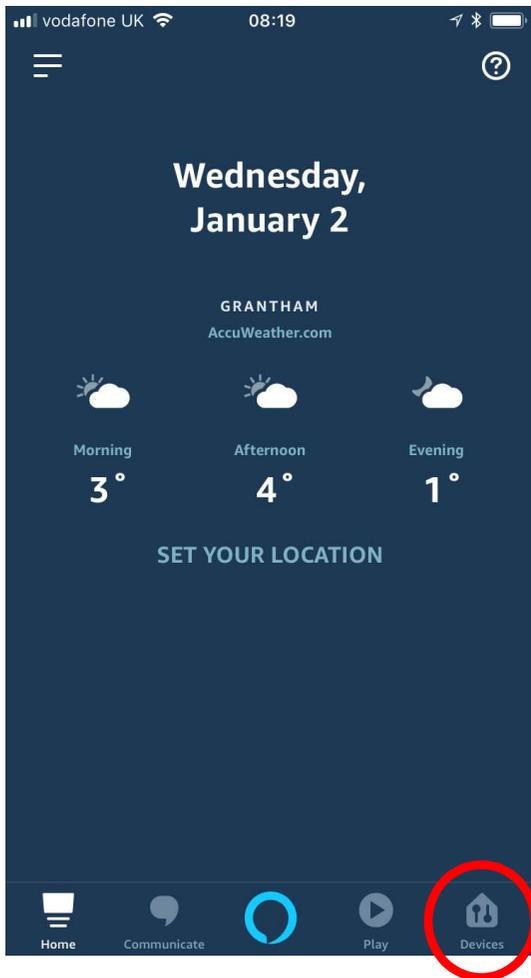

Search for
“Tahoma”

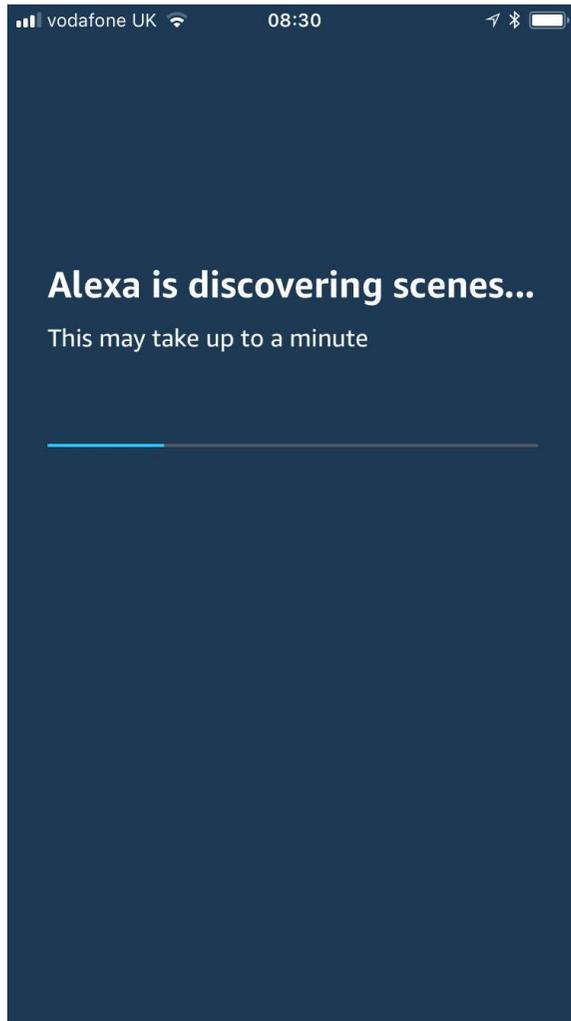

Select and enable
“Tahoma by Somfy”

You will need to
link your Somfy
Tahoma account
to your Alexa
account

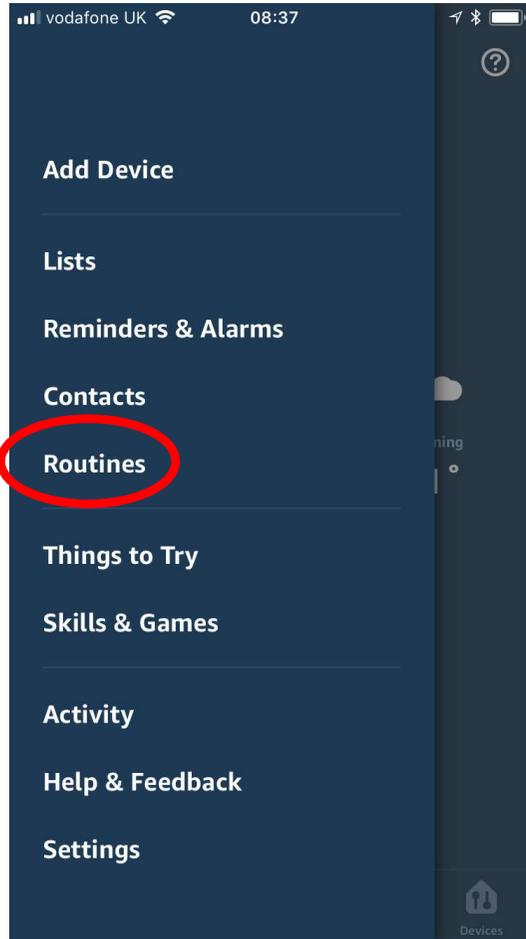

On the home page select “Devices”. Click on “Scenes”.
Scroll Down to bottom and select “Discover Scenes”.

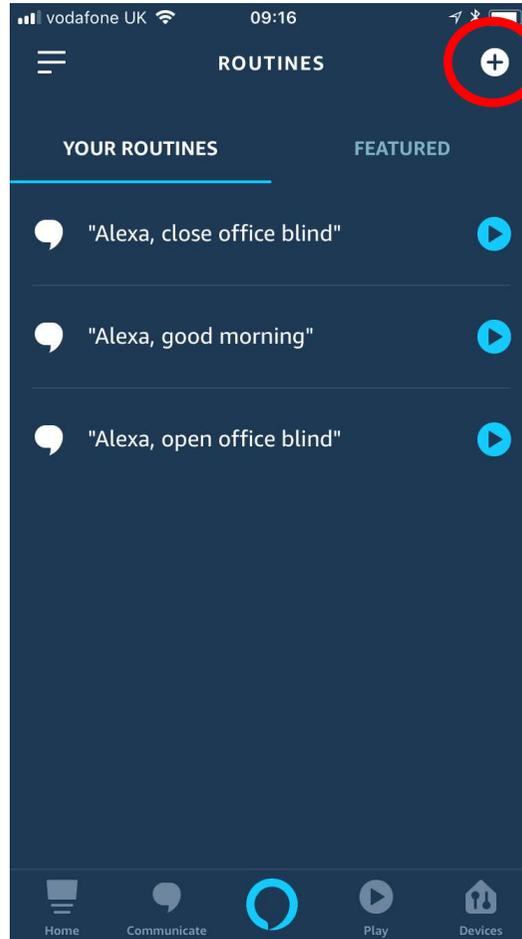

**Your scenarios
created in
Tahoma will be
imported into the
Alexa app**

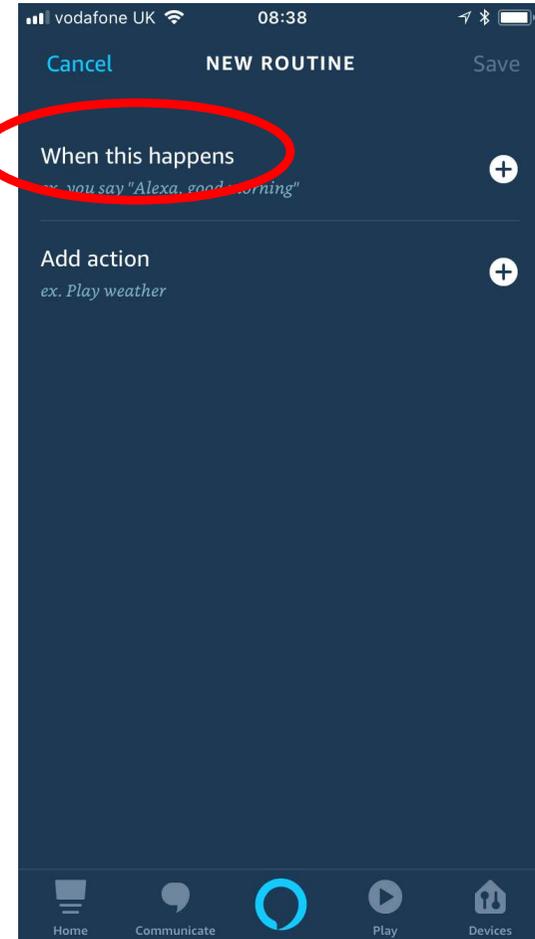

To set your voice command, go to "Routines".

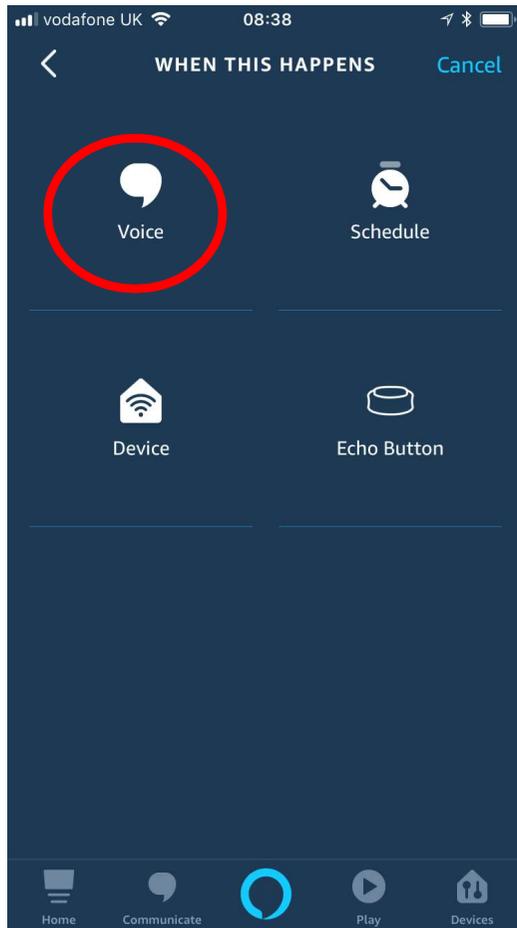

Click "+"

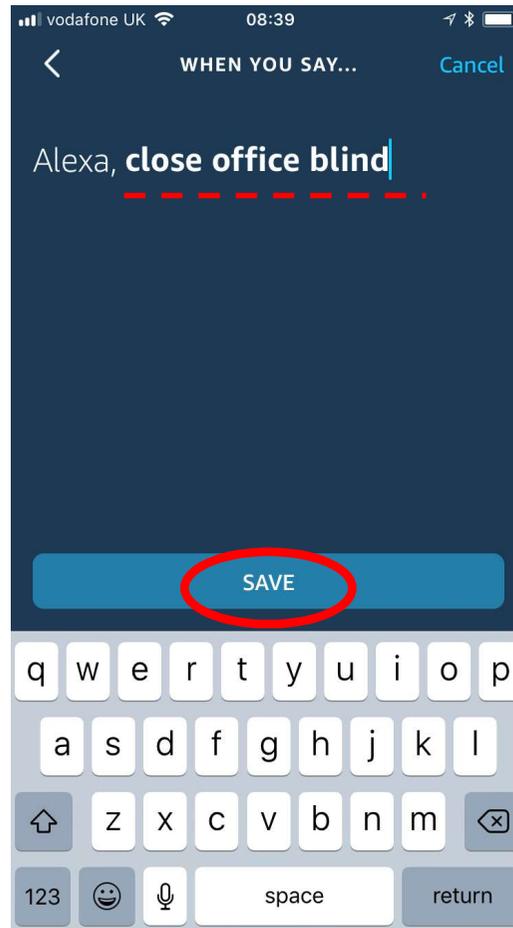

Click, "When this happens"

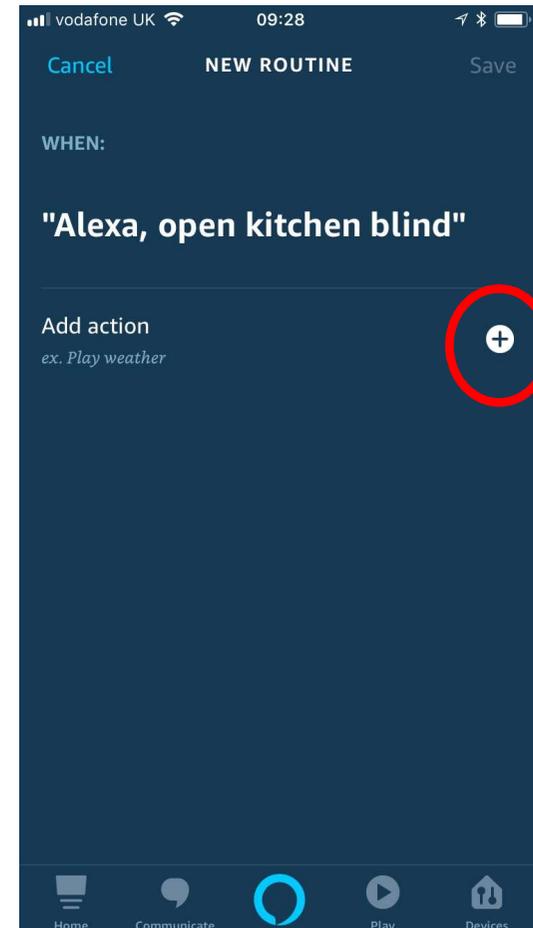

Click "Voice"

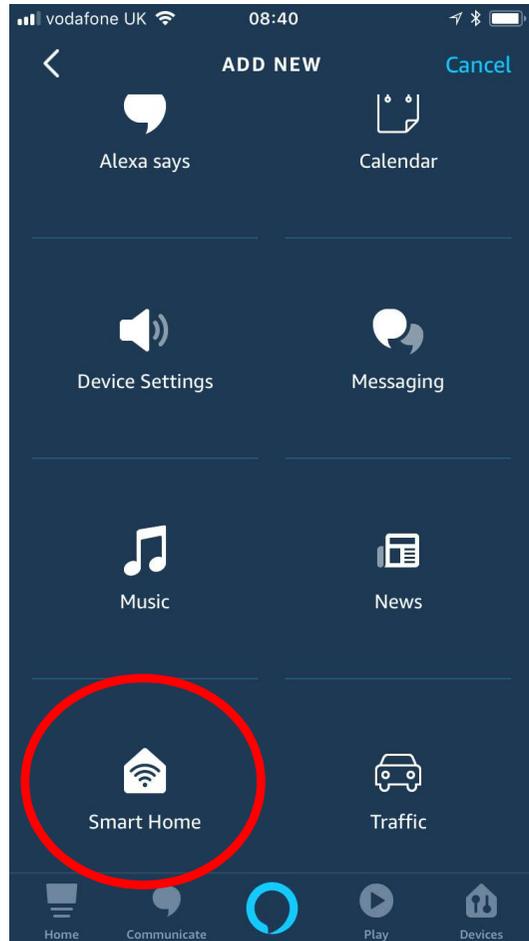

Type the phrase you want to use to activate each scenario. Click "SAVE"

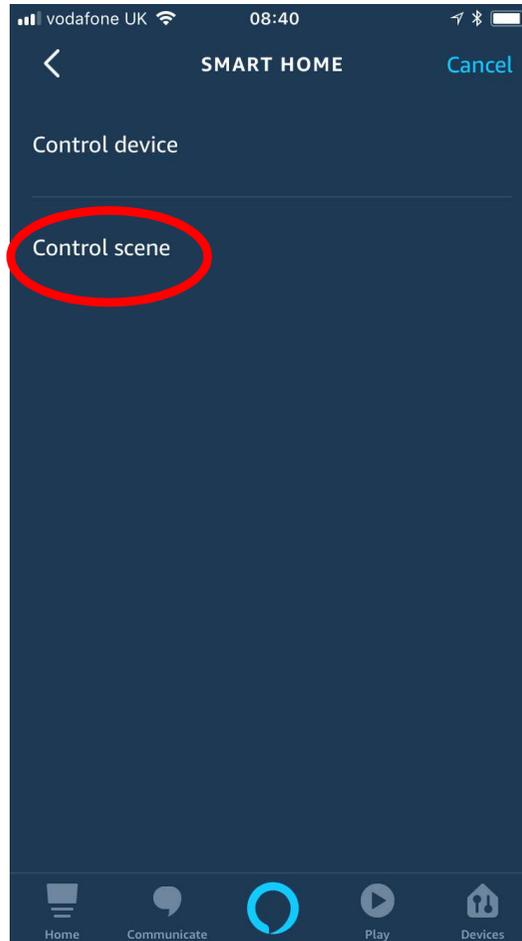

Click on "Add Action"

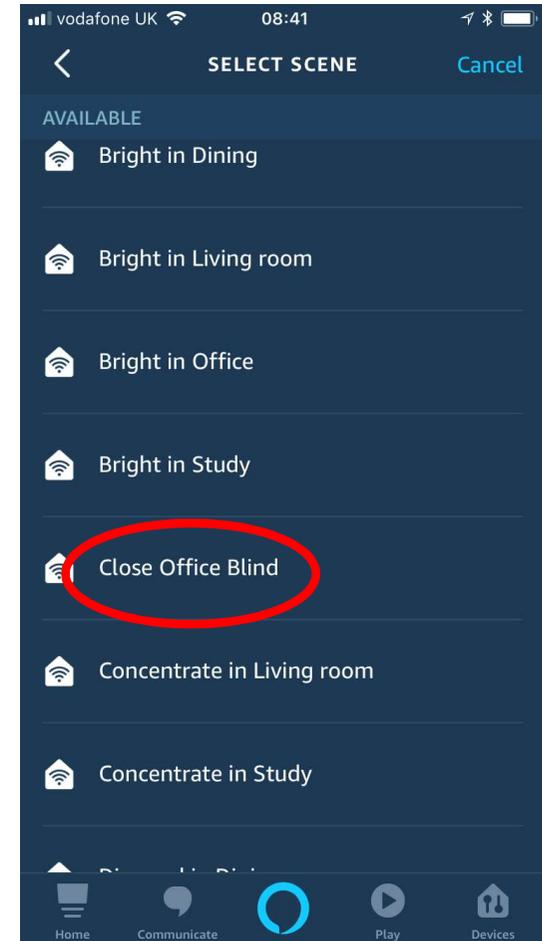

Select "Smart Home"

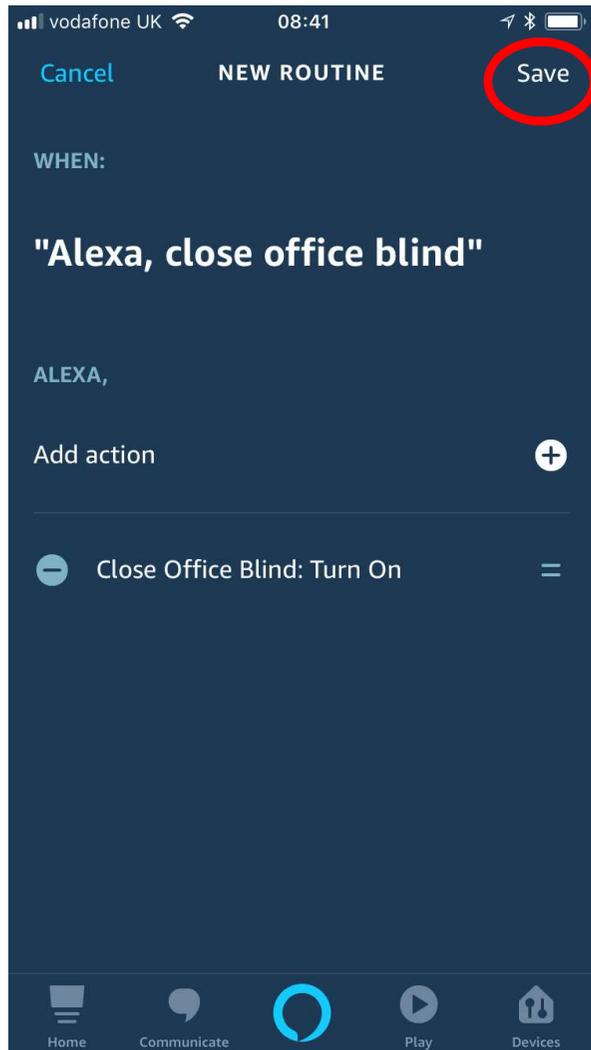

Select "Control Scene"

Select the scenario from the list.

**Your voice
command is
linked to a
Tahoma scenario.**

**Several scenarios
can be linked to a
voice command if
required.**

Click "Save"

**Alexa can now respond to your
voice commands . .**

Alexa, close office blind
